SKILLS

TECHNICAL SKILLS

- Performed Manual Testing
- Functional & Non-Functional Testing
- Task Management
- Network Administration
- Linux Administration
- DVB & Media
- Automation with CICD

ANALYTICAL SKILLS

- Analytical Thinking and Problem Solving
- Identify Areas of Improvement
- Cross functional testing and deep testing to reproduce the random case issues
- Determining causes of operating errors.
- Thinking Out of box test cases (all possibilities)
- Learning New Technologies

PROGRAMING SKILLS

- MySQL
- Linux Shell Scripting
- Python (Beginner)
- Basics in C, Python & html

Senior QA Engineer with 10+ years of expertise in manual testing, test automation, CI/CD pipelines, and DVB/OTT media systems. Currently driving automation excellence at OVT India with Python, Selenium, Pytest and Playwright. With a strong ability to collaborate with support teams to resolve product issues efficiently.

EXPERIENCE

Sr. QC/QA Engineer | Nov 2021 - Present

OVT India Pvt. Ltd., Bangalore, KA.

Project: DVB STB, ONT, & IP Camera Manual & Automation Testing

Roles and Responsibilities:

- Developing and maintaining automation testing frameworks using Python, Selenium, Playwright, and Pytest, including unit, smoke, functional, and regression testing.
- Integrating automated unit and smoke test execution into CI/CD pipelines using Jenkins and Git to support continuous testing, reporting, and code quality validation using SonarQube.
- Written and executed test cases for functional testing (Sanity, Regression, & Smoke).
- Debugged issues and collaborated with the team for root cause analysis and resolution (leveraged DVB expertise).
- Team Management — Task assignment, technical guidance, progress monitoring and etc...

QA/QC Engineer | Jun 2018 - Sep 2021

MR. Ridsys Technologies Pvt. Ltd., Puducherry.

Project: DVB-C STB, DVB Products, Web Application, IPTV & OTT

Summary: Developed DVB products including DVB-C STB, CAS & SMS, and PSI/SI server. Worked as a quality control engineer and project manager for IPTV & OTT R&D.

Roles & Responsibilities:

- Gathered customer requirements, planned, and developed functionalities for STB software.
- Collaborated with the development team to enhance IPTV product stability.
- Managed IPTV project, providing IT support, shell scripting, and quality checking.
- Conducted direct field-testing and resolved customer issues.
- Performed dynamic data testing for PSI/SI & CAS.
- Written test cases based on customer use cases and performed UAT.
- Conducted end-to-end performance testing and set up test environments.
- Led R&D for streaming and transcoder servers (RTMP, HLS, UDP).
- Conducted quality checks and bug fixing for web apps, mobile apps (OTT live TV), and DVB-C STB.
- Tested OTT platform performance and conducted end-to-end network testing.

PROJECT

- Developed a streaming server on Raspberry Pi 4 with support for RTMP/HLS to UDP streaming and UDP to RTMP/HLS clients.

TOOL SETS

- Python - Selenium (Intermediate)
- Pytest (Beginner)
- Playwright (Beginner)
- Jenkins CICD
- Code analyser (SonarQube)
- FFMPEG

CERTIFICATION

- Master Software Testing, Jira, Agile

PERSONAL SKILLS

- Adaptable and Fast Learner
- Highly Committed and Diligent
- Positive and Forward-Thinking Attitude
- Efficient in Managing Multiple Priorities

PERSONAL DETAILS

- Date of Birth - 28.10.93
- Gender - Male
